

March 20<sup>th</sup>, 2020

Dear Students and Parents,

Over our spring break Alberta Education suspended classes at all Alberta schools indefinitely. STAR Outreach students, like all Alberta school students, will no longer be able to receive instruction inside our building. We want to update you on our operations as of Monday, March 23<sup>rd</sup>.

Our courses are designed so they can be worked on away from our building. It will be very important for students to regularly check their starcatholic email for course information from their teachers. The phone, email and platforms such as Google Hangout will be utilized to both assist and instruct students.

We will strive to reduce the exchange of course materials but realize it will be necessary to pick up remaining sections of certain courses. In order to pick up resources you will need to contact the school (during our regular hours of operation) and make an appointment. For safety reasons, do not come to the Outreach building outside of your scheduled appointment time or if you are experiencing cold-like symptoms.

During this new reality we will obviously encounter unforeseen challenges. We will endeavor to work with students and families to solve these challenges, with the goal of student success in every instance. Please be in touch should you have any questions.

Thank you for your support and patience during these challenging times.

Sincerely,

The Staff of STAR Catholic Outreach
